### DID YOU KNOW?

- GABA, also known as gamma-aminobutyric acid, is an amino acid that plays many roles in nerve responses and has been used to support mental clarity.
- D-Ribose is an energy molecule that helps boost muscle energy.
- For an enhanced lime experience, add 1-2 drops of Améo Lime to your 8-10-ounce drink mix.
- Coconut Water is perfect for anyone that participates in exercise, works outside, or is looking for a daily boost.
- Ripstix Limitless features 150mg of naturally occurring caffeine from Green Coffee Bean extract. Synthetic caffeine is typically absorbed quicker in the digestive system giving a spike and crash effect often referred to as the "jitters."
