*Relaxes and fills fine lines, enhances collagen production, and reduces redness.*

Zija's Anti-Aging Night Repair turns back the clock to reveal your natural radiance by relaxing fine lines, enhancing collagen production, filling wrinkles and reducing redness. A Botox-like active called Snowflake relaxes lines and wrinkles. Peptide complexes promote cell turnover and enhance collagen production. Phase2 Rx directly reduces erythema to protect skin from sunlight damage, environmental pollutants, and oxidative stress. A Commiphora mukul extract called Redensin fills crow's feet, frown lines and wrinkles around the face and neck. A concentrated pumpkin extract in seawater called Ocaline reduces reddening of the face. Natural Bamboo Silk leaves skin feeling naturally smooth.

**Suggested Use:** Apply a generous amount to face and neck each night after cleansing.
