

# CORE MORINGA™ XMam®

*XMam utilizes the amazing health benefits of Moringa and other natural ingredients to provide a boost of energy and appetite suppression that's fast-acting and long-lasting. Use XMam to kick-start your journey toward an active lifestyle and finally achieve your weight management goals.*

Exercise has many functions, including building and maintaining healthy bones and muscles, reducing the risk of chronic illnesses, improving mood and outlook, and increasing cognitive performance at work and school. It also optimizes long-term metabolism and metabolic rate, two components that are critical for weight loss and management.

Unfortunately, less than 20 percent of adults engage in the recommended daily amount of physical activity needed to maintain a healthy lifestyle. Many of us have a hard time making exercise a part of our lives because of busy schedules, lack of motivation, and other obstacles; even when we do exercise, we may not be getting the results we want.

Zija's XMam capsules were designed using the following natural ingredients that increase our desire to be active while improving our performance during physical activity; in essence, you can get more out of your workouts and really make them count.

Supplement Facts	
30 Servings Per Container	
Serving Size	1 Capsule
% DV *	Amount Per 1 Serving
	Natural Caffeine 130mg
*Percent Daily Value is based on a 2,000 calorie diet. Your daily value may be higher or lower depending on your calorie needs.
